

Dear McMillin Parents/Guardians,

We are going into our Quarter 1 Parent/Teacher Conferences. Minimum Days start Thursday, Oct. 15 and continue until Oct. 23rd, which is the end of quarter 1. During Conferences, teachers will be teaching live, for two hours. As a reminder, there is no fall break this year. It is important that you schedule a conference with your child's teacher. They have sent out communication

As a reminders, instead of a report card, you will receive a conference form. This form is meant to facilitate and encourage three-way communication between teachers, students, and parents. This is a perfect opportunity for your child's teacher to learn from you about how your child works at home and specific strategies that motivate your child to do their best. Conferences will be held via Microsoft TEAMS. You can even download the free app to your phone, or use your child's computer.

You will notice a change in how your child's progress is being reported to you. It will highlight the preliminary assessment information that has been collected so far this school year. This will help create goals and next steps for your child this school year. Come equipped with information on your child's strengths and areas where you would like to see your child grow.

Sincerely,

Cynthia Orr
