

Corky McMillin Elementary School Fall Portraits Map

Arrive to campus and enter the traffic circle in the far right lane. Advance to check-in table and stop at the curb to allow staff to perform a temperature check and complete health screening questions. Student(s) will be allowed to exit the vehicle once they are cleared and are wearing a mask. **(If a student's temperature or health screening does not clear them for a photograph, parents will be asked to advance behind the previous vehicle and wait in line to exit in order...We ask that you do not exit the campus out of order for the safety of students returning to their vehicles after their photo).** Parents of cleared students will be directed to slowly pull forward and to the left lane and stop beside the camera sets. Students will receive a camera card and given direction to proceed on foot from the check-in table to the appropriate camera. Students will be greeted at the cameras and asked to remain on ground markers set at a safe distance from other students while waiting. The student will give their camera card to the photographer and photographs will be taken. When complete, the student will return to their vehicle and may exit the traffic circle. Below is a map indicating the travel route.
